Summary

- Computer Science (Artificial Intelligence) undergraduate with hands-on experience developing full-stack web applications using TypeScript, JavaScript, React.js, Angular, Node.js, Express.js, PostgreSQL, and MongoDB, with experience building RESTful APIs, designing database schemas, and implementing backend services.

Education

University of Engineering & Management, Kolkata — Kolkata, India
B.Tech in Computer Science & Engineering (Artificial Intelligence) — *2024 – Present*

Nabadwip Bakultala High School — West Bengal, India
Higher Secondary (WBCHSE) — *2024*

Internship

Web Development Intern — May 2025 – Nov 2025
DAS SOLUTIONS — *Indore, Madhya Pradesh*

- Developed responsive web applications using React.js, Angular, TypeScript, JavaScript, HTML5, and CSS3 with reusable and maintainable UI components.
- Integrated RESTful APIs, implemented client-side routing, and managed application state using React Hooks, Context API, Angular Services, and RxJS.
- Built and maintained Angular Reactive Forms, performed debugging and testing, and collaborated through Git-based version control workflows.

Projects

Ecstasia2026 Fest Website — UEM Kolkata
React.js, JavaScript, HTML5, CSS3, Tailwind CSS

- Developed a responsive frontend web application for the official university festival website using React.js and modern frontend development practices.
- Designed and implemented reusable UI components, responsive layouts, and optimized user interfaces for desktop and mobile platforms.
- Integrated frontend features and collaborated with team members using Git-based workflows to deliver a consistent user experience.

Machine Learning Classification Project
Python, Pandas, NumPy, Machine Learning

- Developed a machine learning classification pipeline including data preprocessing, exploratory data analysis, feature engineering, and model training.
- Implemented supervised learning algorithms and evaluated model performance using classification metrics such as accuracy, precision, recall, and F1-score.
- Analyzed datasets using Python libraries including Pandas and NumPy and documented the complete machine learning workflow.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C, SQL
- **Frontend Development:** React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS
- **Backend Development:** Node.js, Express.js, NestJS (Basic), RESTful APIs, Microservices Fundamentals
- **Databases:** PostgreSQL (Basic), MongoDB (Basic), Database Design, SQL Queries
- **Developer Tools:** Git, GitHub, Docker, Postman, VS Code, Jupyter Notebook
