Summary

- Computer Science and Engineering (Artificial Intelligence) undergraduate with hands-on experience developing full-stack web applications using TypeScript, JavaScript, React.js, Angular, Node.js, Express.js, PostgreSQL, and MongoDB. Experienced in REST API integration, database design, and backend service development.

Education

University of Engineering & Management, Kolkata — Kolkata, India
B.Tech in Computer Science & Engineering (Artificial Intelligence) — *2024 – Present*

Nabadwip Bakultala High School — West Bengal, India
Higher Secondary (WBCHSE) — *2024*

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, Java
- **Frontend Development:** React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS
- **Backend Development:** Node.js, Express.js, REST APIs, Microservices Fundamentals
- **Databases:** PostgreSQL (Basic), MongoDB (Basic)
- **Developer Tools:** Git, GitHub, Postman, VS Code, Jupyter Notebook

Projects

AlignX — AI-Powered Student Matchmaking

- Developed a student matchmaking model to intelligently match student profiles with relevant academic requirements and preferences.
- Implemented and evaluated machine learning approaches for generating accurate and relevant student-to-opportunity recommendations.
- Preprocessed and analyzed structured student data to identify key features and improve the quality of model-driven matching.

Experience

Web Development Intern — May 2025 – Nov 2025
DAS SOLUTIONS — *Indore, Madhya Pradesh*

* Developed responsive web applications using React.js, Angular, TypeScript, and Tailwind CSS.
* Integrated REST APIs and implemented client-side routing, state management, and Angular Reactive Forms.
* Debugged application issues and collaborated with developers using Git-based workflows.
